

## **Model B-IPS-2**

**Berry's Model B-IPS-2 IP Salvage Station** is a work table providing cone mounts and shower wash.

<b>WATER:</b>	1/2" CONNECTION
<b>HEIGHT:</b>	APPROX 54" (ADJUSTABLE TO 60")
<b>WIDTH:</b>	APPROX 48"
<b>LENGTH:</b>	APPROX 48"

**Construction:**

The Berry Plumbing & Equipment **IP Salvage Station Model B-IPS-1 & 2** is constructed of stainless steel with brass spray nozzles for durability and easy cleanup.

**Options:**

The **IP Salvage Station** is available in two standard configurations, **Model B-IPS-1** and **B-IPS-2**. The former is a single station enclosed on sides and back. It is provided with a shower nozzle with valve and a separate water saver valve. The latter is a two sided multi-station unit with a center divider. Four cones are mounted on each side of the table, each with its own shower nozzle and valve.

**Operation:**

Birds are mounted on the **IP Salvage Station's** stainless steel cones where any contaminated product is cut away. Waste falls through the grate table top into the hopper below which is provided with a drain. Each cone is installed beneath a shower wash nozzle with a convenient valve.

**Maintenance:**

Berry's **IP Salvage Station Model B-IPS-1 & 2** requires very little maintenance aside from regular daily cleaning.
