

Berry Wing Picker 2

Model B-WP-2

The Berry Wing Picker B-WP-2 is designed to clean the wings by the rotating rubber fingers which are placed to gently brush away cuticle matter, then rinse the matter away with use of the water spray nozzles. The model B-WP-2 is constructed of stainless steel, Teflon, and aluminum for durability and easy clean up and has the capacity to process up to 300 birds per minute. The model B-WP-2 should be positioned after the last bird picker on the picking line.
